BALLINGER FINDINGS

Minority Decision Made Public and Ordered Filed

MINNEAPOLIS, Sept. 9.—"That Richard A. Ballinger has not been true to the trust reposed in him as secretary of the interior; that he is not deserving of public confidence and that he should be asked by the proper authorities to resign his office."

The foregoing was the findings of the four Democratic members of the Ballinger-Pinchot congressional investigating committee made public today.

The Republican members issued no report.

An independent report was given out by Mr. Madison, the insurgent Republican from Kansas, which declares also that Mr. Ballinger "should not be retained, that he was an unfaithful trustee of the public interest, an enemy of conservation and that the charges of Gifford Pinchot should be sustained."

These findings will be printed and led with congress.

The decision of the four Democrat members and Mr. Madison to make the reports public following an unusual session. Three Republican members, Senator Sutherland of Utah and Representatives McCall of Massachusetts and Denby of Michigan, refused to attend the meeting. Finally the chairman of the committee himself, Senator Nelson of Minnesota, left the committee room and failed to return.

Chairman Nelson gave notice a meeting would be held in Chicago next Tuesday. The Democratic members adjourned to meet in Washington on December 1.

Representative Ollie M. James of Kentucky, one of the Democratic members, announced all of the Democrats would refuse to attend the meeting of which Senator Nelson had given notice. The Republicans will then be in the same position that the Democratic members and Mr. Madison found themselves today.

Summarized, the Democratic findings are that the evidence shows:

"That there was no conspiracy against Mr. Ballinger.

"That Gifford Pinchot and L. R. Glavis were faithful trustees of the people's interests.

"That Ballinger's conduct on certain occasions was intended to and did have the effect of deceiving the president.

"That Mr. Ballinger's action in having 'closed listed' the so-called Cunningham Alaskan coal lands and ordering them patented, showed bad faith.

"That he advocated a bill to validate Alaskan coal claims alleged to be fraudulent.

"That his action in acting as attorney in cases pending in the land office while he was commissioner, was reprehensible.

"That he helped to force the Cunningham coal claims to a hearing before the government was ready to proceed.

"That he encouraged insubordination in the reclamation service and condoned improper official conduct in that connection."

BIRTHDAY PARTY.

A party of young girls were entertained at the Henderson home on Jefferson avenue last evening, the occasion being in honor of the Thirtieth birthday anniversary of Miss Beryl Henderson. The home was beautifully decorated in autumn colors, red and golden brown prevailing. Fall flowers in profusion, branches loaded with red berries and branches brilliant with autumn colors were artistically arranged and an effective lighting by means of pretty shades and Japanese lanterns completely a truly beautiful scene.

Dancing was enjoyed, the music being furnished by an orchestra which played many of the newest, popular airs. Following the dancing program a six course supper was served in the dining room. The table was beautifully decorated and an enormous birthday cake occupied the center of the table, a unique plan being carried out in the arrangement of the birthday favors, which were cunningly secreted in the side of the birthday cake with ribbons attached and extending to the dainty place cards. At the close of the repast each guest and the little hostess drew from the cake a pretty gift, that of Miss Henderson being a silver purse engraved with a pretty monogram. Miss Henderson was also the recipient of many other birthday remembrances. Guesting contests were also a pleasant feature of the evening, Miss Dorothy Blackman winning first prize and Miss Ethel Harris the booty prize.

The guests were: Miss Florence Wright, Ethel Harris, Kathryn Hoag, Kathryn Joyce, Lethella Runyon, Louise Wright, Mildred Barton, Dorothy Wright and Dorothy Blackman.

SHE TOOK A SHOT AT HIM

Wife of a Physician Had a Lover Who Proved Untrue

Los Angeles, Sept. 10.—Mrs. M. Krauss, wife of Dr. Krauss, said to be a well-known educator and physician of Memphis, Tenn., shot and slightly wounded Franklin H. Griffith, a mining broker of this city, today.

She shot at Griffith three times with a 32-calibre revolver, one bullet passing through his right forearm. Mrs. Krauss is in jail.

Mrs. Krauss had known Griffith for several years, and, according to her story, had advanced to him considerable money for the purchase of mining stock, which, she said, she afterward found to be worthless. She alleged that Griffith had promised to marry her as soon as she was able to obtain a divorce from Dr. Krauss, but that ultimately he had refused to do so or make any return of the money she had advanced.

She went to the broker's office to day, carrying a small revolver in her coat. When she again demanded the return of her money, Griffith slapped her, she said. She then drew her revolver and fired at him.

"I am a good shot and did not aim to kill him; I only tried to shoot him through the arm," she said.

Griffith claims that Mrs. Krauss came to him and represented herself as a single woman and that when he found that she was married he broke off their engagement. He also denied he had taken money from Mrs. Krauss and, on the contrary, claimed that she had many times endeavored to extort money from him.

Mrs. Krauss gave her age as 29 years and said she had been married to Dr. Krauss nine years ago in Memphis, Tenn., but that they were incompatible and she had left him with the understanding that she was to be allowed to obtain a divorce. This divorce, she believed, had been recently granted in Memphis.

Healthy Mothers

Mother's Friend

The bearing of children is frequently followed by poor health for the mother. This supreme crisis of life finding her physical system unprepared for the demands of nature, leaves her with weakened relative powers and sometimes chronic ailments. This can be avoided if Mother's Friend is used before the coming of baby, and the healthy woman can remain a healthy mother. It is the only remedy that perfectly and thoroughly prepares the system for healthy motherhood, and brings about a natural and easy consummation of the term. Women who use Mother's Friend are always healthy and recover more quickly, and saved much suffering when the little one arrives, and recover more quickly, and saved much suffering when the little one arrives, and recover more quickly, and saved much suffering when the little one arrives.
